For those who just arrived: We are recording today's talk and it will be posted on our website later today: <https://www.geoaquawatch.org/geo-aquawatch-webinar-series/>

**James Nyaga - RCMRD** sent a chat · 9:26 AM

Kindly, the link to the outputs again?

**James Nyaga - RCMRD** sent a chat · 9:36 AM

Great work that has been implemented. I have a question. I am not sure I got the part for forecasting.

**Mar Roca** sent a chat · 9:38 AM

**Joost van Dalen** sent a chat · 9:38 AM

Thanks for the wonderful presentation! Really well-explained even for non-experts!

**Merrie Neely** sent a chat · 9:39 AM

Thanks for the complement Joost! It was a good explanation.

**Merrie Neely** sent a chat · 9:40 AM

James do you have another question? I see your hand raised. Unsure if it was from your prior questions.

**Anabella Ferral** sent a chat · 9:41 AM

Congratulations! very nice and interesting presentation! Are you planning to include temperature maps in your analysis? in that case, how they would contribute to understand the SPP, turbidity and chlorophyll-a dynamics ?

**James Nyaga - RCMRD**sent a chat · 9:41 AM

Yes, I can follow as the last person

**Merrie Neely**sent a chat · 9:41 AM

Ok yes

**Anabella Ferral**sent a chat · 9:43 AM

thank you !

**James Nyaga - RCMRD**sent a chat · 9:44 AM

Thank you again Mar. Cheers, I have to leave.

**Merrie Neely**sent a chat · 9:47 AM

Mar - could you comment on who in the community uses your products? Have they expressed their satisfaction with it and making management decisions? Are they interested in the forecasting work and perhaps contributing requirements for it's development? If so how can a forecast help managers in this region to prepare? Will it be public warnings? Advice to fishers on where to collect their fish? etc.?

**Megan Coffe**sent a chat · 9:54 AM

Thank you, Mar!

**Alexandre Castagna (UGent)**sent a chat · 9:54 AM

Thank you Mar
